My goal is to perfectly accommodate the ambience/theme you would like to create, so feel free to let me know the type of atmosphere you envision as well as any key songs you'd like me to include.

For example: *I'd like to set an airy, romantic/wedding-like mood, and play the following songs: "Can't Help Falling in Love" by Elvis Presley, "Lover" by Taylor Swift + "Two of Us on the Run" by Lucious.*
Also, if you include details about the venue appearance such as if there's a color scheme, if it is outdoors/indoor etc. or type of décor, I will prepare and dress according to the event.

In Summary: Here are all the questions to consider.

1. What length of time would you like me to perform?
2. What is the ambience/theme you envision along with any song requests you have?
3. What is the venue location, and time you'd like me to perform?
4. How early I can arrive to set up my equipment and do a quick sound check?
5. Is there a dress code/preference of attire for your venue?
6. Will it be indoors, outdoors, or at night?
7. Finally, is there any other information about the occasion to best suit your needs?

Kindest regards, Sarah Leo
